## 2025 is a milestone for WEDO

Over 30 years ago, we revolutionized the market with the first plastic roller stool - our "elephant foot". Today, we are writing the next chapter in this success story and opening a new era in our company history.

Back then, when metal products were the standard, we launched a stool design on the market that was not only practical, but also pioneering: dismantlable, easy to transport and store. Right on time for the new year, I am delighted to present the next evolution: our SuperStep rolling stool.

The stool is durable, robust and remains true to its proven design. The SuperStep embodies the high-quality standards we set for our products and reflects our corporate philosophy - or in this case on three castors: Experience and tradition combined with innovation and a pioneering spirit to set new standards for quality and sustainability.

The first roller stools are still in the Dorsch family's living room and office today - symbols of the values that have guided us since the 1930s: Reliability, quality and progress. Our company name is a symbol of consistency for more than 90 years.

Our rolling stool has become an icon. I would like to thank you for this - for your confidence, your loyalty and for actively helping to write this story. It is with pride that I have taken the lead in drawing the first line in this new chapter. I look forward to working with you to write the next few lines.

On the following pages, you will find numerous products that reflect our vision for the future. In addition to the SuperStep, you can expect a mix of new product highlights and well-known classics. All of them are elements that show the future for WEDO: Innovation is born from tradition. In 2025, we will continue our path consistently - always with the aim of not only taking the next step, but also setting the direction. I am grateful for every one of you who is joining us on this journey.

### Pencil Cases BUSINESS, DENIM, and COLLEGE

These multi-compartment pencil cases feature three zippered sections, offering ample storage for school and university essentials. The spacious main compartment easily fits pens and a standard geometry set square. Inside, seven pen loops on one side and two card slots with two mesh pockets on the other ensure optimal organization. The exterior is made of easy-care polyester in modern gray, black, or blue, with a wipeable gray polyester lining. The sturdy zippers and pullers are color-coordinated with the case. Dimensions: 23 x 7.5 x 8.5 cm

## SILICON Malmatten

The perfect protection for every table, for school and hobbies. The removable colouring cup, like the colouring mat itself, is foldable, washable and particularly easy to clean. The small compartments on the mat for mixing colours are very practical because the paint box stays clean. Simply run it under the tap after painting or crafting. Dried paint can also be easily removed.

Dimensions: approx. 50.00 x 40.00 cm, suitable for A3 paper

**Prod. code:**  
**79 504009 rose**  
**79 504010 blue**

The brush holders keep things tidy.

**Practical to take away:**  
 The soft cup can be folded from a height of 4.0 cm to approx. 2.8 cm.

### WEDO® Creativmarker SILVER+Outline

With the new KREATIVMARKERS SILVER + Outline it is very easy to creatively design nice greetings or to write attractive cards. After a short push on the point, the silver text is surrounded by a thin colored outline when writing or painting. The total line width is between 1-2 mm depending on the applied pressure and works best when writing on light carton and stones. The set includes 6 pens in pink, orange, green, light and dark blue and black. The appealing, compact counter display contains 8 sets.

### Craft Tool Set COMFORTLINE

The compact tool kit for all craft enthusiasts includes a craft knife with 5 precision blades in four forms, one awl and two embossing pins with ball head (diameter approx. 1.5 and 3.0 mm) for the embossing technique. Various attachments can be replaced quickly and easily by the turn lock cap.

Knife incl. blade length: 15 cm, colour: apple green / black

**Prod. Code: 78 72199** supplied in carton box with euro hole

Prod.-No. 78 72199

Prod.-No. 78 62599

### Hobby Knife Pocket COMFORTLINE

This new hobby knife features a practical sliding mechanism for retracting the blade. Due to the ergonomically shaped soft grip zone, the craft knife is slip-resistant and fits comfortably in the hand and can be worked with excellently.

The extremely sharp blades are ideal for fine cutting work. Length of shaft: ca. 13 cm, colour: apple green / black

**Prod. Code: 78 62599** supplied on self-service card with 5 spare blades

Prod.-No. 975 411

### Silhouette Scissors COMFORTLINE

The comfortable soft grip handles provide comfortable cutting with its large gripping holes.

The special grinding of the extra-pointed stainless steel blades ensures precise cuts. Supplied on high-quality self-service try-me card.

**Prod. Code: 975 411** Length: 11.4 cm, colour: apple green / white

Prod.-No. 975 4060

### Hobby Scissors COMFORTLINE

The comfortable soft grip of the new hobby scissors due to its big finger holes ensure an easy and comfortable cutting.

The special cut of the pointedly grinded scissors blades made of stainless steel guarantee precise cuts.

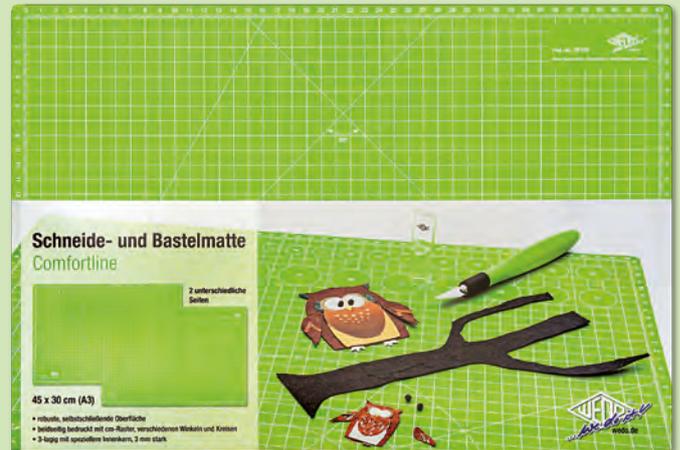

Dim.: 15 cm, colour: apple green/white

**Prod. Code: 975 4060** On self-service card.  
Dim.: approx. 21.5 x 10.0 cm

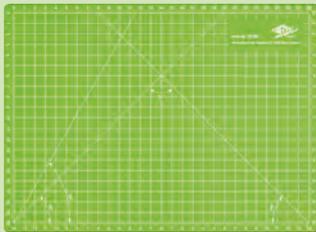

## Cutting and Craft Mat COMFORTLINE

The robust cutting mat is printed on both sides with a cm grid, different angles and circles. The 3-layer construction with a special inner core and self-closing surface permits precise, traceless cuts and preserves the sharpness of the blade. Can also be used as a writing surface.

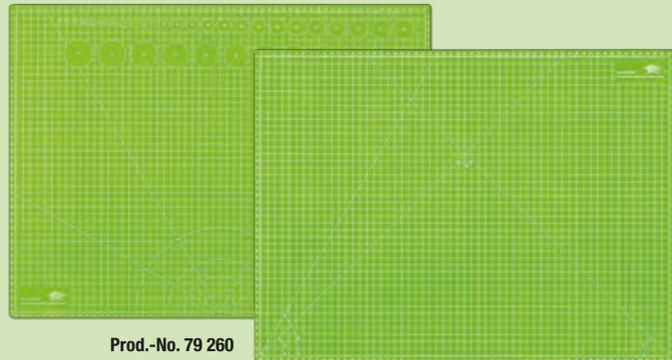

- Prod. Code: 79 230** supplied with supplement in foil packaging  
Dim.: 30 x 22 cm (A4), thickness: 3 mm, scale 28 x 20 cm
- 79 245** supplied with supplement in foil packaging

## CATTA - CERAMIC CUTTER FOR HOME USE

Household cutter in lightweight plastic housing with ceramic blade. Perfect for opening welded plastic packaging and food packaging. The spring-loaded trapezoid blade retracts automatically after the cut. Replacement blades are available.

Dim. approx.: 15,5 x 2,6 x 1,4 cm, weight approx.: 21 g.

The appealing, compact counter display contains 12 pieces.  
Dim.: 14 x 13,5 x 27 cm

**Prod. Code: 79 700** 12 pieces in assorted colors: orange/white, turquoise/white, light green/white

**Prod. Code: 79 70** Box with 3 spare blades

Prod.-No. 985 4

Prod.-No. 979 4

### TITANIUM PLUS SILHOUETTE SCISSORS

Special scissors made from stainless steel with titanium coated blades and rubber profile inlays for better comfort. The blades are very special pointed.

The titanium coating assures very good non-adhesive characteristics, extreme mechanical toughness, high corrosion durability and a long lifetime. Ideal for very fine and precise cuts. On blister card.

Dim.: 11.5 cm      Weight: 22 g      Packed: 10/100

Prod. Code: 985 4      Colour: grey/yellow

### SOFT-CUT SILHOUETTE SCISSORS

Very special pointed scissors features brushed stainless steel blades and soft-grip handles.

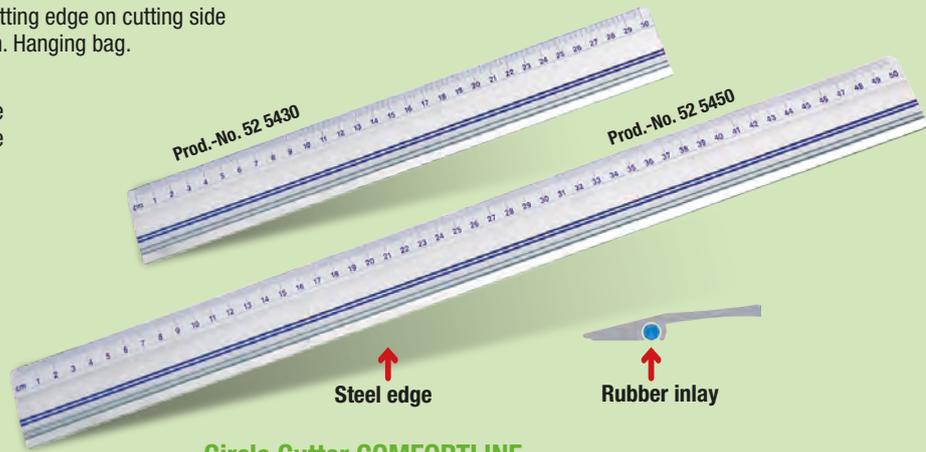

Dim.: 10.5 cm      Weight: 24 g      Packed: 12

Prod. Code: 979 4      Colour: black/blue

### Aluminium Rulers

Aluminium cutting ruler. Inlay steel cutting edge on cutting side and non-slip rubber strips underneath. Hanging bag. Packed: 8

Prod. Code: 52 5430      30 cm Scale  
52 5450      50 cm Scale

### Rotary Cutter COMFORTLINE 45 mm

The rotary cutter Comfortline with integrated blade guard (sliding mechanism) cuts thanks to the extremely sharp blade with ease and precision fabric – also thick cloth – leather, paper and vinyl. Due to the comfortable soft-grip zone the cutter is slip-resistant. The blade guide is reversible for right and left-handers. Dim.: approx. 19.2 x 5 x 2.6 cm, blade diameter: 45 mm, Colour: apple green/white.

Prod. Code: 78 9145      Supplied with inserted straight cut blade and a pinking blade in storage box on self-service card.

Replacement blades in plastic box on self-service card

Prod. Code: 78 4501      Spare blade, straight cut  
78 4502      Spare blade, pinking cut

### Circle Cutter COMFORTLINE

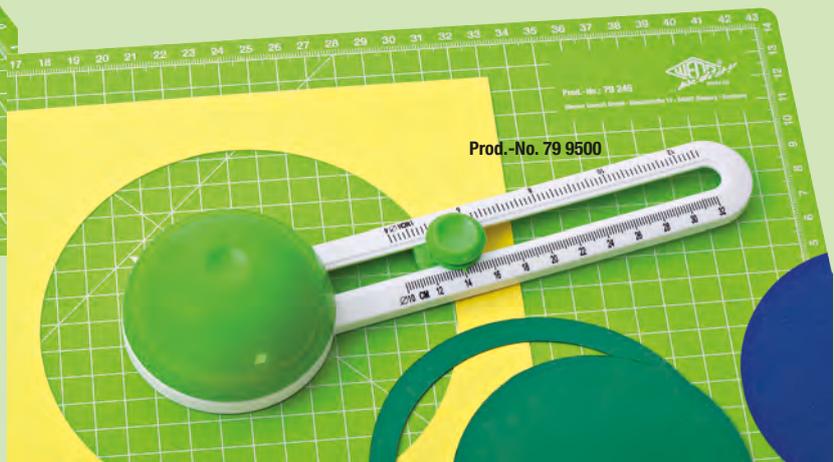

The circle cutter cuts circles from 10 to 32 cm / 4 to 12.5 inches in diameter (cutting tolerance  $\pm 1$  mm) on paper, photos and thin cardboard up to a thickness of max. 300 g / sqm. The slider with locking screw can be continuously adjusted to the desired diameter. Then put the fixing head with non-slip silicone foot in the center of the circle and move the arm with the cutting unit around the circular axis. Ready! Due to double sided grinding of the blade the circle cutter is suitable for both right and left handed use. Delivery incl. 3 blades, with protective cap, which are kept in the integrated storage compartment.

Dim.: approx. 21.9 x 7.0 x 4.2 cm, colour: apple green/white

Prod. Code: 79 9500      supplied in carton box with euro hole  
79 95      5 spare blades in plastic box

Prod.-No. 78 9145

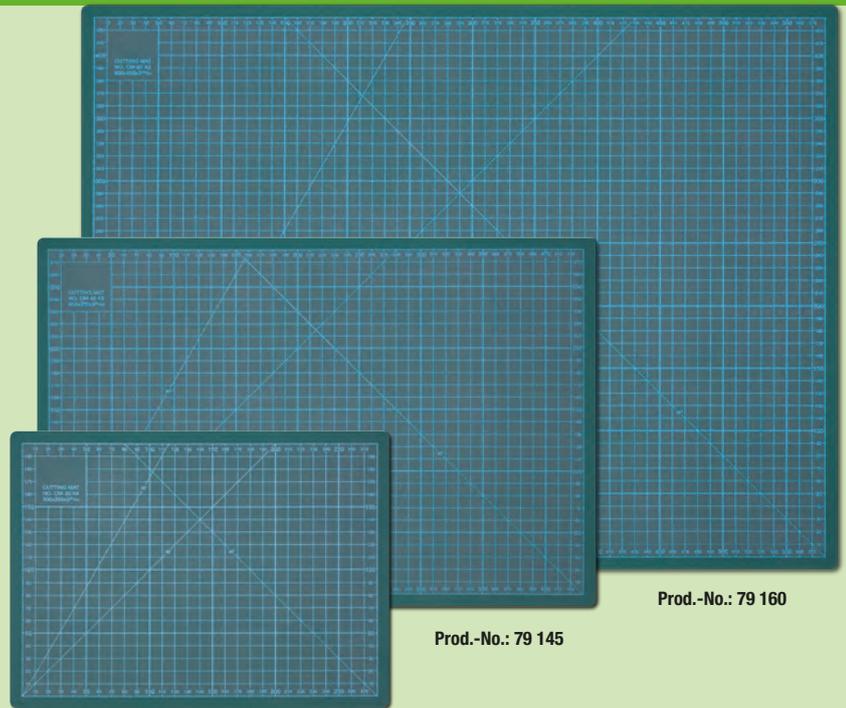

Prod.-No. 79 9500

## CUTTING MATS

Double-sided cutting mats with printed grid on one side and self-healing surface provide clean and accurate cuts. Three layer, one hard layer between two soft layers, and can be used on both sides. 3 mm thick.

Colour: green with white grid division

**Prod. Code: 79 130** 30.0 x 22.0 x 0.3 mm Packed: 10/100  
**79 145** 45.0 x 30.0 x 0.3 mm Packed: 10/100

## WEDO® Safty Cutter FOIL with scraper 888

Safely removes foils, tapes, strapping, and is also ideal for scraping off wallpaper residues, glue, and more. Maximum safety is ensured by the protected corner enclosure around the foil-cutting function. This prevents damage to packaged goods when opening boxes. Foil cutter cutting depth: up to 7 mm. Blade extends for scraping: up to 7 mm

### ...two functions in one tool

- Rubberized grip zone
- TÜV/GS certified
- Supplied with a high-quality blade + 3 replacement blades made of SK2 carbon steel in a hanging self-service box
- Dim.: ca. 17,5 x 5,0 x 1,6 cm
- Weight: ca. 164 g

Prod. Code: 78 888

### REPLACEMENT BLADES 78 8881

Each box contains 10 pieces made of SK2 carbon steel.

## WEDO® Cutter with Scraper 822 with rotatable blade

Cutting, splitting foil, and scraping off residues – all in one tool. With a simple thumb motion, you can select the desired function, eliminating the need to switch between different specialized tools during work. The sturdy hook at the end of the cutter also makes it easy to open metal cans.

### ... three functions in one tool

- Metal blade guide
- Durable metal housing
- Rubberized grip zone
- Three functions adjustable via slider
- TÜV/GS certified
- Supplied with a high-quality blade in a hanging self-service box
- Dim.: ca. 17,5 x 5,0 x 1,6 cm
- Weight: ca. 164 g

Prod. Code: 78 822

### REPLACEMENT BLADES 78 8221

Each box contains 10 pieces.

## WEDO® Safety Cutter Foil 865 For foil, boxes, or strapping

Safety at its best, as the concealed blade provides maximum protection against cuts and damage to goods. It is suitable for all common packaging materials, such as 2-ply cardboard, film, sack goods, plastic strapping, cord, adhesive tape, etc.

The plastic scorer on the upper blade guard makes it easy to cut open package tapes. The cutting depth is 0.6 cm.

### ... with blade protection everything stays safe!

- Ergonomic aluminum housing
- Lightweight and easy to handle
- Integrated spare blade magazine
- Practical hanging loop
- TÜV/GS certified
- Delivered with a high-quality blade in the side blade magazine, packaged in a hanging self-service box
- Dim.: ca. 15,8 x 3,4 x 1,5 cm
- Weight: ca. 70 g

Prod. Code: 78 865

### REPLACEMENT BLADES for 78 865

Prod. Code: 78 86,  
Dim.: 4,2 x 1,9 cm  
Delivered in a box of  
5 pieces, hanging

## WEDO® Safety Cutter Foil 864 – ultra light – ultra practical

The concealed blade provides maximum protection against cuts and damage to goods. It is suitable for all common packaging materials, such as 2-ply cardboard, film, sack goods, plastic strapping, cord, adhesive tape, etc. The cutting depth is approx. 0.6 cm. The blade is non-replaceable.

### ... safely and quickly open boxes and films

- Ergonomic fiberglass-nylon body
- Lightweight and easy to handle
- Practical hanging loop
- TÜV/GS certified
- Packaged in a hanging self-service box
- Dim.: ca. 13,2 x 4,4 x 0,4 cm
- Weight: ca. 17 g

Prod. Code: 78 864

## Safety Cutter 814 + 2 Replacement Blades

The spring-loaded trapezoid blade made of SK5 carbon steel automatically retracts after cutting (do not hold the slider while cutting). The durable aluminum housing with a rubberized grip zone ensures a light and secure hold. The cutter is suitable for both right- and left-handed users without the need to change the blade.

### ... right or left – without any blade change

- Automatic blade retraction
- Spring-loaded trapezoid blade
- Ergonomic aluminum handle with rubberized grip zone
- TÜV/GS certified

#### INCLUDED IN DELIVERY:

- Delivered with 2 replacement blades and 1 pre-installed blade made of SK5 carbon steel in a hanging self-service box
- Dim.: ca. 15,0 x 3,3 x 1,6 cm , Weight: ca. 78 g

**Prod. Code: 78 814**

# We do it.

**Next STEP is now  
SUPERSTEP!**

**Our ambition**

1. Enhance product safety even further.
2. Improve the ecobalance.
3. Conserve resources.

To achieve these three goals, we have spent the last few years tinkering, developing, designing, discussing, deciding and ultimately making major investments.

We commissioned new machines and tools, optimized the prototypes and, like all safety products at WEDO®, had the kick step TÜV certified. We're ready now.

**Twice the safety with  
2 components or 1+1=1**

We have improved the SUPERSTEP treads to make slipping practically impossible by using two components,

polypropylene (PP) and a thermo-plastic elastomer (TPE), which are inseparably bonded together.

TPE is soft, but unlike rubber, highly resistant to UV rays and a wide range of weather conditions without forfeiting quality. Our steps are not bonded or pressed, but injection molded.

The body material is nevertheless 100% recyclable because both substances have the same basis and can be recycled together.

**It's only 468 grams for us, but many tons for all of us.**

Our keen desire to conserve resources and optimize the shape of our SUPERSTEP kick step once more was the impetus to shave off every excess gram.

### Optimierung der Verpackung und Logistik

Optimising the weight, shape and packaging has enabled us to increase our previous pallet load by 40%.

Our kick steps are largely manufactured using green electricity. Our packaging is made of cardboard and is 100% plastic-free.

**Prod. Code: 212 3**

Material: PP and TPE

### Key Cabinets with Electronic Lock

The new key cabinet combines a classic lock with an electronic combination lock, which can be individually programmed at anytime (user code 3 to 8 digits). Therefore a variety of users can be given access since the code can be changed in an instant without the necessity to use additional keys.

In an emergency the key cabinet can also be opened mechanically using the included keys and the built in cylinder lock.

Manufactured from powder coated solid steel and fitted with adjustable hook rails which are numbered as per capacity of keys. The pivot-mounted index sheets help to keep a good overview. The safety lock comes with 2 numbered keys and 4 x AA batteries for the combination lock. A wall mounting kit is also included.
